SUMMARY

Senior front-end developer and solo founder of BAKLOG (baklog.app). Five-plus years shipping production WordPress (including WP VIP) and Shopify (including Shopify Plus) for nonprofit, education, and enterprise clients: 50+ launches at Fervor Creative as primary technical contact for a 150+ site portfolio, now freelancing at Rhumblin AI. Specialist in Core Web Vitals, SEO, and WCAG 2.1, routinely lifting Lighthouse Performance, SEO, and Accessibility scores by 30 to 50 points. BAKLOG unifies a player's game library across 20 storefronts with a 27-source sync engine, 480 automated tests, and Lighthouse 100 on accessibility, SEO, and best practices.

pipertrust.org · WordPress
Grants site for AZ philanthropy - \$764M+ invested

Helios Education Foundation

helios.org · WordPress, Gutenberg
\$350M+ over 20 yrs; ASU Decision Center partner

Greystar / Alta luxury brand

altauptown.com · thestationbyalta.com · WordPress, ACF
100+ shared-theme multifamily sites; +30 to 50 pt Lighthouse

NYX Cycle

nyxcycle.com · WordPress
Brand-forward lifestyle site, custom theme

SELECTED PROJECTS

BAKLOG: Local-first game library platform

baklog.app · Solo founder · Full case study at danogrodnik.com/#baklog

- Architected a desktop app unifying a user's library across 20 storefronts (Steam, Epic, GOG, PlayStation, Xbox, Nintendo, and more) with a 27-source sync engine and live, non-blocking refresh
- Built the full stack: Python local server, Chrome DevTools Protocol browser auth, AES-256-GCM encrypted credentials, and a vanilla-JS dashboard with virtual scrolling and Web Worker queries for 1,000+ row tables
- Shipped with production discipline: 480 automated tests (pytest + Vitest), CI on Windows, an axe-core accessibility gate, and Lighthouse 100 on accessibility, SEO, and best practices

Virginia G. Piper Charitable Trust

Grants & Programs site for \$764M Arizona foundation · pipertrust.org

- Custom Gutenberg block library and ACF flexible content for the editorial team

- Image pipeline rebuild, Core Web Vitals tuning, and WCAG 2.1 AA across all flows
- Lighthouse Performance, SEO, and Accessibility scores lifted 30 to 50 points

Greystar / Alta - Multifamily Theme Platform

100+ luxury community sites · altauptown.com, thestationbyalta.com

- Single ACF-driven WordPress theme with property-specific Sass tokens
- Modular page-builder pattern for rapid per-property launches
- Consistent Lighthouse lifts of 30 to 50 points across the portfolio

FIRST Foundation - Rare-Disease Patient Hub

firstskinfoundation.org · \$2.2M research funding · 1,600+ patient registry

- WordPress front-end on Gutenberg + GenerateBlocks for events, physician finder, and donation flows
- WCAG 2.1 AA across events, registry, and donation flows; Schema.org markup for discoverability
- Designed for global patient audience including users on assistive technology

EXPERIENCE

Founder & Full-Stack Engineer - BAKLOG (*baklog.app*)

2026 – Present

Remote

- Founded and solo-built BAKLOG, a local-first desktop app unifying game libraries across 20 storefronts; own product, engineering, and go-to-market
- Engineered a 27-source sync orchestrator with per-source freshness tracking, cross-store dedupe, and ownership-aware deal alerts
- Hardened for production: atomic writes, fetch drift guard, localhost CSRF protection, encrypted credentials (AES-256-GCM + OS keyring), zero telemetry
- Stood up CI with 480 automated tests and an axe-core accessibility gate; shipped the landing page and a full case study at danogrodnik.com/#baklog

Freelance Front-End Developer - Rhumblin AI

2025 – Present

Remote

- Led WordPress front-end for FIRST - Foundation for Ichthyosis & Related Skin Types (firstskinfoundation.org) on Gutenberg + GenerateBlocks; shipped events, physician finder, and donation flows with Schema.org markup and WCAG 2.1 AA for a global rare-disease nonprofit (\$2.2M research funding, 1,600+ patient registry)
- Delivered conversion-focused WordPress and Shopify front-end work; used React for interactive UI on Shopify and high-traffic landing pages where the stack called for it
- Built reusable Gutenberg patterns and Sass component layers so stakeholders could publish without breaking layout or accessibility
- Ran Lighthouse and Core Web Vitals audits pre-launch; tuned image delivery, font loading, and third-party scripts to hit performance targets
- Coordinated async with stakeholders; iterated against conversion and accessibility metrics rather than ticket counts alone

Web Developer - Fervor Creative

April 2022 – October 2024

Remote / Los Angeles, CA

- Shipped 50+ production WordPress and Shopify sites in 30 months for nonprofit, education, and multifamily real estate clients including ASU, Starbucks, The Piper Trust, and 100+ Greystar Real Estate properties
- Owned post-launch support across a 150+ site agency portfolio; triaged plugin conflicts, hosting incidents, and accessibility regressions under same-day response expectations
- Engineered custom WordPress and Shopify themes in PHP, JavaScript (ES6+), and Liquid; translated Figma designs into production front-ends meeting WCAG 2.1 AA
- Lifted Lighthouse Performance, SEO, and Accessibility scores by 30 to 50 points per site via Core Web Vitals tuning, Schema.org / JSON-LD, and WCAG remediation

- Partnered with designers, project managers, and QA in Agile sprints; managed releases through Git, staging environments, and WP Engine / Flywheel deployments

Freelance / Contract Web Developer - *Straight Up Digital, ANova Digital*

August 2020 – Present

Remote

- Deliver end-to-end WordPress and Shopify development for small-to-mid-market clients on retained and project bases
- Convert complex design mockups into production-grade Liquid (Shopify) and PHP / Sass (WordPress) themes; integrate REST APIs for payments, shipping, and marketing automation
- Optimize page speed, mobile usability, and accessibility post-launch; document handoff and provide async client support

EDUCATION

Master of Fine Arts (MFA), Music - California Institute of the Arts, Valencia, CA · 2013

Bachelor of Music (BM), Music - University of Hartford, Hartford, CT · 2009

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02) - in progress
