Bio

Skilled web developer and digital artist with extensive experience in building responsive, user-friendly interfaces using a diverse range of languages, libraries, and frameworks. Combines a strong background in web development and e-commerce with a keen eye for design to deliver visually compelling and technically robust digital experiences. Adept at optimizing performance, accessibility, and usability while maintaining clean, efficient code.

Experience

Web Developer at Fervor Creative

April 2022-October 2024

- Built and launched ~50 websites and maintained many more, ranging from collaborations with ASU and Starbucks to The Piper Trust and over 100 individual sites for Greystar Real Estate.
- Primary contact for client technical support
- Developed responsive user interfaces using WordPress and Shopify, and customized themes using PHP and JavaScript
- Improved site performance by 30-50 points in SEO, ADA, and Lighthouse performance scores

Freelance Web Developer at ANova Digital

October 2021-present

- Utilizes Shopify and Wordpress to develop and maintain responsive user interfaces

Freelance Web Developer at Straight Up Digital

August 2020-present

- Develops responsive user interfaces in WordPress and Shopify
- Customizes themes using Liquid, PHP and JavaScript
